NAME INDEX

An index to the names of composers, authors of words, editors, compilers, arrangers, claimants, etc. given in the main entries. In general, names are arranged alphabetically under the distinctive part of the name, e.g., Schirmer (G.) Inc.; Strauss, Johann. Firm names preceded by qualifying words or phrases are also inverted unless the grammatical construction requires that the phrases not be broken, e.g., Arpege, Editions; but Editions Ouvrieres. Each name is given in the fullest form and in the spelling found in the work and accompanying application. A name recorded in connection with more than one work and application may therefore appear in varying forms and degrees of fullness. Below each name are the titles under which the main entries are to be found. Renewal registrations are identified by the symbol (R).
